Study Guide

1 Overall impression

Studying at the University of Strasbourg was an exciting experience, however they still need to adapt to the modern world, It is unbelievable that the online matriculation was not possible for us, every document had to be submitted in person or send by post.

2 Making preparations

(e.g. administrative matters, finding information)

It was in general difficult, the lectures schedules change every week, and you will only find out the dates of the exams one month before taking them, so holidays are not an option.

3 Contacts/Responsibilities

(e.g. important contact persons at the Partner University and Faculty)

Depends of the program you choose, you will only have contact to the secretary of your program.

4 Housing

It was as difficult as to find a place in Zurich, a lot of scam on the french websites so better take care.

5 Arrival

I had to arrive two weeks in advance in order to do the matriculation because it was not possible to do it online.

6 Telephone

(e.g. costs, carriers)

They have a great deal with "free" only 9 euros per month.

7 Bank account

I didn't open any there.

8 Transport

I use my bike as most of the students, it is faster than the tram.

9 General information about the Partner Faculty and student life

The lecture rooms are really small and the faculty looks in bad shape.

10 Teaching and studying at the Partner Faculty

(e.g. program structure, methodology, exams, etc.)

Most of the exams were oral, however the big written exam last 5 hours, you have to prepare for 4 different lectures but you will only be evaluated about 1. You have to follow the french structure in writing papers, it is very important for them.

11 City

(e.g. cultural activities, sports, discounts, nightlife, must-sees, short trips, etc.)

Many bars and coffees for students. Colmar is very close and Strasbourg looks specially beautiful in winter.
