FUNDING, SCHOLARSHIPS, AWARDS

Listed in descending (from newer to older) chronological order:

Funding as PI (Principal Investigator)

- Funding from the SNF (*Ambizione*) for ca. 850'000 CHF
- Funding from the Swiss Academies of Medical Sciences for 80'000 CHF
- Several policy-projects funded from the Swiss Federal Office of Public Health (ca 100'000 CHF in total)

Funding as Project-collaborator or Project Partner:

- 2025: Participation in the preparation work (consulting on a work-package and planned inclusion in activities and advisory board) for a project on the topic of Neurotechnologies and their regulation, in particular regarding Neuroabandonment (what happens legally and ethically, when a neurotechnology company that has already started implanting devices goes bankrupt?). Submitted in 2025 to SNIS (<https://snis.ch/>), an important swiss funder providing up to 300'000 CHF (ca. 330'000 EUR)
- 2023: Participation in the preparation work (consulting on a work-package and planned inclusion in activities and advisory board) and then research collaboration on an ERC Advanced Grant (PI Professor Klaus Hoeyer, University of Copenhagen), awarded 2,5 million Euros. Details available at: <https://dataspace.ku.dk/>

Scholarships/Awards in descending (from newer to older) chronological order:

- 2022: Award of the Faculty of Medicine for the PhD dissertation (1000 CHF)
- Scholarship to attend and present international conferences for young promising scientists by the University of Basel (<https://www.unibas.ch/de/Forschung/Finanzierung/Reisefonds.html>) in 2018, 2019 and 2022 (various amounts, ca. 1000 CHF each)

- Scholarship by the University of Trento for academic achievement “Premi di merito, edizione 2018” (more than 5000 Euros)
- Erasmus+ Scholarship in academic year 2014/2015 and academic year 2016/2017 (various amounts)
- Scholarship by the “Opera Universitaria di Trento” between 2012 and 2015 (various amounts)

COMMISSIONS OF TRUST

- member of the SPHN (Swiss Personalized Health Network) ELSI Advisory Group. SPHN is the large national initiative for the exchange and reuse of data between university hospitals in Switzerland
- Ethics Advisor for Machine Learning Computational Advancements for peRsonalized mEdicine, a EU-funded research and training network that seeks to advance precision medicine by developing AI solutions that integrate genomic, clinical, and environmental data into holistic, multimodal patient representation (<https://mlcare.webs.tsc.uc3m.es/>)
- Member of the Open Science Commission a+ of the Swiss Academy of Arts and Sciences
- Member of the Expert Committee for the revision of the Swiss Federal Human Research Act and the Federal Law on Research on Embryonic Stem Cells.
