Component Honor Code

Before each exam, the honor code must be confirmed by clicking the checkbox.

Only then the contents of the underlying components become accessible. In this case these are the components Download and Upload.

Component Download

The "Download" component contains the assignment as a PDF and the answer template as a Word file.

The Word file must be downloaded and the xxxxxxxx in the file name must be replaced by the student number: Example: Answer_Legal Theory_14704845.docx

The answers must be written directly into the Word templates.

Component Upload

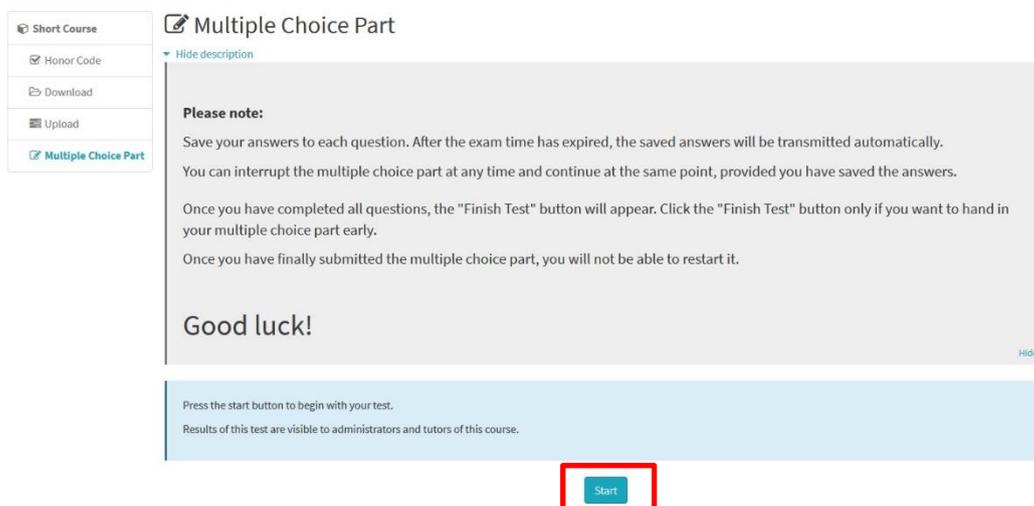

The "Upload" component is used to upload the answer sheet for essay exams as a PDF. The Word file must therefore be saved as PDF. Example: Antwort_Sachenrecht_14704845.pdf
The upload can be done with the button "Upload documents". If the wrong document was selected, it can still be exchanged.

Only when you are sure that you have selected the correct PDF, confirm the upload by clicking the "Final Submission" button. After that nothing can be exchanged or uploaded anymore.

Component Multiple-Choice exam

Click on "Start" to open the test. It is extremely important that "Save answer" is clicked for each question. Otherwise the answer will not be recorded.

At the top right there are two buttons "Finish test" and "Suspend test". The "Finish test" button will only appear after you have answered all questions or at least pressed "Submit answer" for each question. By clicking on the former, the multiple choice part is terminated and can no longer be started or modified.

By clicking on the latter, the multiple choice part is interrupted and you return to the start page. If you now click on "Start" again, you can continue where you left off, provided that you have clicked on "Save answer" until then. Otherwise the answers are lost.
